Probability Theory

and Related Fields

Continuation of
Zeitschrift für Wahrscheinlichkeitstheorie

Volume 116 2000

Managing Editor

. Bolthausen — Editorial Office of PTRF, Institute of Applied Mathematics, University of Zürich, Winterthurerstrasse 190, CH-8057 Zürich, Switzerland

Honorary Editors

K.L. Chung, Stanford — **K. Krickeberg,** Paris — **L. Schmetterer,** Wien

Editorial Board

M.T. Barlow

Springer

"Probability Theory and Related Fields" was founded in 1962. The original title was **"Zeitschrift für Wahrscheinlichkeitstheorie und verwandte Gebiete."** As of Volume 51, 1980, the subtitle *Probability Theory and Stochastics* was added. Beginning with Volume 71, 1986, the main title was adapted into English.
The first Managing Editor was L. Schmetterer, who was succeeded by K. Krickeberg in 1971, by H. Rost in 1985, O. Kallenberg in 1991 and by E. Bolthausen in 1994.

Copyright
Submission of a manuscript implies: that the work described has not been published before (except in the form of an abstract or as part of a published lecture, review, or thesis); that it is not under consideration for publication elsewhere; that its publication has been approved by all coauthors, if any, as well as by the responsible authorities at the institute where the work has been carried out; that, if and when the manuscript is accepted for publication, the authors agree to automatic transfer of the copyright to the publisher; and that the manuscript will not be published elsewhere in any language without the consent of the copyright holders.

All articles published in this journal are protected by copyright, which covers the exclusive rights to reproduce and distribute the article (e.g., as offprints), all translation rights as well as the rights to publish the article in any electronic form. No material published in this journal may be reproduced photographically or stored on microfilm, in electronic data bases, video disks, etc., without first obtaining written permission from the publisher.

An author may make an article published by Springer-Verlag available on a personal homepage provided the source of the published article is cited and Springer-Verlag is mentioned as copyright holder. Authors are requested to create a link to the published article in LINK, Springer's Internet service. The link must be accompanied by the following text: The original publication is available in LINK at http://link.springer.de. Please use the appropriate URL and/or DOI for the article in LINK. Articles disseminated via LINK are indexed, abstracted and referenced by many abstracting and information services, bibliographic networks, subscription agencies, library networks, and consortia.

While the advice and information in this journal is believed to be true and accurate at the date of its going to press, neither the authors, the editors, nor the publisher can accept any legal responsibility for any errors or omissions that may be made. The publisher makes no warranty, express or implied, with respect to the material contained herein.

Special regulations for photocopies in the USA. Photocopies may be made for personal or in-house use beyond the limitations stipulated under Section 107 or 108 of U.S. Copyright Law, provided a fee is paid. All fees should be paid to the Copyright Clearance Center, Inc., 21 Congress Street, Salem, MA 01970, USA, stating the ISSN 0178-8051, the volume, and the first and last page numbers of each article copied. The copyright owner's consent does not include copying for general distribution, promotion, new works, or resale. In these cases, specific written permission must first be obtained from the publisher.

The Canada Institute for Scientific and Technical Information (CISTI) provides a comprehensive, world-wide document delivery service for all Springer-Verlag journals. For more information, or to place an order for a copyright-cleared Springer-Verlag document, please contact Client Assistant, Document Delivery, Canada Institute for Scientific and Technical Information, Ottawa K1A 0S2, Canada (Tel: 6 13-9 93-92 51; Fax: 6 13-9 52-82 43; e-mail: cisti.docdel@nrc.ca).

Contents of Volume 116 (2000)

Ané C, Ledoux M: On logarithmic Sobolev inequalities for continuous time random walks on graphs 573

Barbour AD, Gerrard RM, Reinert G: Iterates of expanding maps 151
Bass RF, Eisenbaum N, Shi Z: The most visited sites of symmetric stable processes 391
Boué M, Dupuis P, Ellis RS: Large deviations for small noise diffusions with discontinuous statistics 125
Buckdahn R, Quincampoix M, Răşcanu A: Viability property for a backward stochastic differential equation and applications to partial differential equations 485

Chen X: On the limit laws of the second order for additive functionals of Harris recurrent Markov chains 89
Collet P, Martínez S, San Martín J: Asymptotic behaviour of a Brownian motion on exterior domains 303
Cox JT, Klenke A: Recurrence and ergodicity of interacting particle systems 239

Delyon B, Juditsky A: On minimax identification of nonparametric autoregressive models 21
Deuschel J-D, Velenik Y: Non-Gaussian surface pinned by a weak potential 359
Dupuis P → Boué M 125

Eisenbaum N → Bass RF 391
Ellis RS → Boué M 125

Fleischmann K, Vatutin VA: An integral test for a critical multitype spatially homogeneous branching particle process and a related reaction-diffusion system 545
Föllmer H, Protter P: On Itô's formula for multidimensional Brownian motion 1
Freidlin M, Sheu S-J: Diffusion processes on graphs: stochastic differential equations, large deviation principle 181

Gerrard RM → Barbour AD 151

Hu Y, Shi Z: The problem of the most visited site in random environment 273
Hueter I, Lalley SP: Anisotropic branching random walks on homogeneous trees 57

Ioffe D, Velenik Y: A note on the decay of correlations under δ-pinning 379

Johansson K: Transversal fluctuations for increasing subsequences on the plane 445
Juditsky A → Delyon B 21

Klenke A → Cox JT 239
Kusuoka S, Liang S: Laplace approximations for sums of independent random vectors 221
Kusuoka S, Yoshida N: Malliavin calculus, geometric mixing, and expansion of diffusion functionals 457
Kyprianou AE: Martingale convergence and the stopped branching random walk 405

Lalley SP → Hueter I 57
Lalley SP, Sellke T: An extension of Hawkes' theorem on the Hausdorff dimension of a Galton–Watson tree 41
Ledoux M → Ané C 573
Leduc G: The complete characterization of a general class of superprocesses 317
Liang S → Kusuoka S 221
Lindsay JM, Wills SJ: Existence, positivity and contractivity for quantum stochastic flows with infinite dimensional noise 505

Martínez S → Collet P 303

Peszat S, Zabczyk J: Nonlinear stochastic wave and heat equations 421
Protter P → Föllmer H 1

Quincampoix M → Buckdahn R 485

Răşcanu A → Buckdahn R 485
Reinert G → Barbour AD 151

6 369HI XL 1949 ICI
8/00 31249-200 NJLB

San Martín J → Collet P 303
Scheffler H-P: A law of the iterated logarithm for heavy-tailed random vectors 257
Sellke T → Lalley SP 41
Sheu S-J → Freidlin M 181
Shi Z → Bass RF 391
Shi Z → Hu Y 273

Vatutin VA → Fleischmann K 545
Velenik Y → Deuschel J-D 359
Velenik Y → Ioffe D 379

Wills SJ → Lindsay JM 505

Yoshida N → Kusuoka S 457

Zabczyk J → Peszat S 421
